Q6 What do you think about the level of the course, was it at about the right level for you?

Answered: 44   Skipped: 0
ANSWER CHOICES	RESPONSES	
Too high: a lot of challenging material that was too much to absorb so I was lost most of the time	31.82%	14
About right: it was a lot of challenging material, but I felt it was about the right level for what I wanted to learn	65.91%	29
Too low: teach this at more advanced level or cover more topics, since I was already familiar with most of the material	2.27%	1

Q7 Did you like that the DSE and OSE programs were merged for the week long DSE2019 summer school?

Answered: 44   Skipped: 0
ANSWER CHOICES	RESPONSES	
Yes: it added to the overall experience	31.82%	14
Neutral: I did not perceive any difference in the OSE and DSE students so it did not matter to me	52.27%	23
No: the OSE and DSE students were unequally prepared so combining them reduced the quality of instruction for both	15.91%	7

# Q8 Did you like that the summer school was done in conjunction with the conference?

Answered: 44   Skipped: 0
ANSWER CHOICES	RESPONSES	
Yes: it added to the overall experience	84.09%	37
Neutral: the conference was interesting but it may have distracted from the summer school and made it longer	9.09%	4
No: the conference was a bit over my head and made the whole summer school too long	6.82%	3

Q9 Do you think that the DSE2019 summer school should have had more "lab sessions" or "problem sets" where you can get "hands-on" instruction in computer programming and using different estimators in practice?

Answered: 44   Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes: I think more of these sessions would improve the summer school experience	47.73%	21
Neutral: I see pros and cons, and think I can learn coding on my own and would rather have more lectures than lab sessions	29.55%	13
About right: I felt the number of labs and topics covered were about right	9.09%	4
No: the summer school is too short and there is too little time to absorb the details of computer coding to justify including lab sessions that are anything more than playing simulated games or running already coded estimation examples. There is not enough time to expect that we can do computer programming on our own or understand someone else's code	13.64%	6

Q10 How did you feel about the breadth of topics/methdologies presented?

Answered: 44   Skipped: 0
ANSWER CHOICES	RESPONSES	
Very satisfied: a good balance of topics, methods, and instructor orientations	47.73%	21
Somewhat satisfied: there were some really useful lectures, but too much was covered too fast to really absorb well	38.64%	17
Neutral: I liked some topics but felt I could ignore topics I was not so interested in	11.36%	5
Somewhat dissatisfied: too much material was covered, and the connections between the lectures were inaequate or unclear	2.27%	1
Very dissatisfied: too narrow or too unfocused to be useful to me	0.00%	0
